

SEE THE SPECTRUM OF

POSSIBILITIES

Arconic Architectural Products For architects and builders, few things are more important than the successful execution of a bold design. That's why so many rely on Reynobond® composite material to amplify the impact of their ideas. Our lightweight, formable and colorful coil-coated finishes are available in both standard and custom finish options, opening up a world of possibilities for even your most ambitious concepts. Dramatic curves, daring angles and unique shapes come to life with eye-catching appeal and superior performance. Add easy maintenance with up to a 30-year warranty and you have a design solution that can go as far as your specifications—and imagination—require.

Bold Ideas Require Bold Finishes

Use this color chart as design inspiration for your next project. If you don't find the right shade, we're happy to produce individual custom colors upon request.

Colorweld[®] 500/500XL Finishes

Our coil-coated Colorweld[®] 500 and Colorweld[®] 500XL finishes offer superior performance. From soothing neutrals to shimmering silvers, these premium low- to medium-gloss finishes feature advanced resins with 70% polyvinylidene fluoride (PVDF) that provide excellent flexibility, strength and weather resistance.

Duragloss[®] Finishes

With our Duragloss® paint system, you can explore your most imaginative ideas. Its UV resistance, bright color capabilities and high- to low-gloss levels add up to a bold image with fewer maintenance costs over the life of the building.

Design Line[™] Nature-Inspired Finishes

Inspired by Mother Nature, our Design Line[™] finish system brings you a variety of striking options that mimic natural materials while providing all the performance benefits of Reynobond® composite material. These multi-layer-coat, advanced polymer finishes offer high resistance to aging, UV and corrosion that meets and exceeds their natural counterparts—delivering both beauty and brawn.

With Anodized Reynobond[®] composite material, style goes more than skin deep. The anodized layer creates a harder, smoother surface with resistance to abrasion. Our anodized composite material is lightweight and easy to fabricate, and has a great strength-to-weight ratio.

Brushed Aluminum Finishes

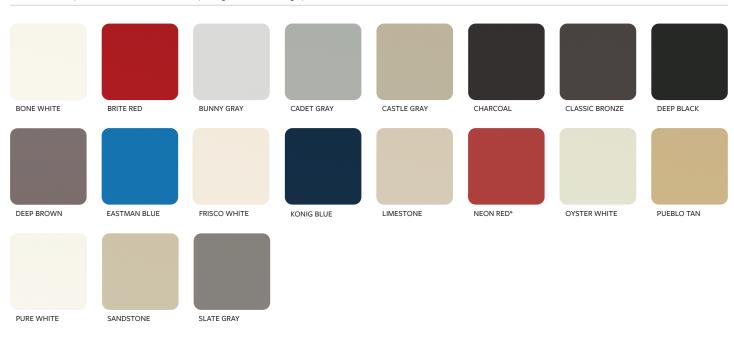

Sleek, contemporary and highly attractive, our Brushed Aluminum finishes combine natural beauty with high performance. They are designed to meet the aesthetics and durability requirements of exterior use to create a natural look that distinguishes your buildings.

DISCLAIMER

Laws and building and safety codes governing the design and use of AAP's products, and specifically aluminum composite materials, vary widely. It is the responsibility of the owner, the architect, the general contractor, the installer and the fabricator/transformer, consistent with their roles, to determine the appropriate materials for a project in strict conformity to all applicable national, regional and local building codes and regulations.

REYNOBOND® FR AND AS3000B HAVE SUCCESSFULLY PASSED US NFPA 285, E84 AND CANADA S134, S102 TESTS AS A PART OF AN ASSEMBLY. ENSURE THE PRODUCT IS USED IN A SYSTEM THAT COMPLIES WITH ALL APPLICABLE REGULATIONS. REYNOBOND® PE IS COMBUSTIBLE; IT COULD CATCH FIRE AND BURN. ANY LABORATORY TESTING INFORMATION PROVIDED BY AAP LLC APPLIES ONLY TO THE PARTICULAR PRODUCT OR ASSEMBLY TESTED AND DOES NOT NECESSARILY REPRESENT HOW PRODUCTS WILL ACTUALLY PERFORM IN USE. REPORTS AND TEST DATA CORRESPONDING TO A PARTICULAR TESTED PRODUCT SAMPLE OR ASSEMBLY ARE NOT A GUARANTEE THAT THE SAME PRODUCT OR ASSEMBLY WOULD ALWAYS ACHIEVE THE SAME TEST RESULT.

Information contained herein or related hereto is intended only for evaluation by technically skilled persons, with any use thereof to be at their independent discretion and risk. AAP and its affiliates shall have no responsibility or liability for results obtained or damages resulting from such use. AAP grants no license under, and shall have no responsibility or liability for infringement of, any patent or other proprietary right. Nothing in this document should be construed as a warranty or guarantee by AAP, and the only applicable warranties will be those set forth in AAP acknowledgment or in any printed warranty documents issued by AAP. The foregoing may be waived or modified only in writing signed by an AAP officer.
